OPPOSING REPUBLICAN FACTIONS REACH COMPLETE AGREEMENT IN COMMITTEE ON TREATY AND LEAGUE, UPHOLDING SENATE

Threatened Disruption of Party Over Foreign Affairs at An End.

LODGE HANDS ULTIMATUM

Senate Leader in Fight Against Treaty Prepares for Contest on Floor if the Plan of the Mild Reservationists Is Adopted; Letter Now Are Satisfied.

By Associated Press.

CHICAGO, June 10.—A League of Nations plank, declared by leaders to be acceptable to everybody, was unanimously adopted today by the Republican resolutions sub-committee, apparently ending all threats of a party split over the league issue.

The plank upholds the Senate in refusing to ratify the treaty of Versailles, declares that any future international peace understanding must agree with American traditions and customs, and the affirmation declaration for a league which had been urged by the mild reservationists.

Originally drafted weeks ago by Elihu Root, the plank was revised at an all-night series of conferences and was adopted by the sub-committee after Senator Lodge of Massachusetts, the Republican Senate leader, had appeared in the committee room and declared that the mild reservation proposal was acceptable to him.

The plan was said by the sub-committee members to be wholly acceptable to former Senator Crane of Massachusetts, leader of the mild reservation group, and its acceptance removed the only obstacle to a speedy conclusion of the work of the National convention. The complete platform was to be taken to the convention floor late in the afternoon and it was said a night session might be called to begin the hearing of nominating speeches.

Shortly before noon the work of the sub-committee was completed and members said they thought there would be no barrier to a prompt acceptance of the draft by the full committee.

CHICAGO, June 10.—A League of Nations plank drafted by Elihu Root was accepted as a basis of compromise today by irreconcilable on the resolutions sub-committee.

The plank which upholds the position of the Senate and does not declare in specific terms for ratification of the treaty also was agreeable to Ogdin Mills of New York, a representative of the mild reservation group on the sub-committee and the members generally declared the prospects of a complete agreement were bright.

The agreement was reached at a conference by Senator Lodge of Massachusetts, the Republican Senate leader, and afterwards Senator Borah declared that Senator Lodge had taken a stand opposed to ratification of the treaty and would so state to the convention.

The members of the sub-committee declined to give out the text of the plank, saying they wanted to take an hour or two for finally polishing it up before giving it to the public.

It was announced, however, that omitting all endorsement of the pending league covenant the Root resolution provides for a new agreement with other nations which shall include a tribunal for the settlement of international disputes. It was prepared by Senator Root before his departure for Europe but has been modified considerably by the sub-committee.

A tentative agreement has been reached by the convention managers not to hear any nomination speeches until the platform has been presented. Under that arrangement today's proceedings would be devoted entirely to "filling in" speeches. Almost at the moment the convention managers made this agreement they received word that the platform committee was about to agree, that all danger of a split had been averted and that the report would be presented today. A fulfillment of this latter plan would bring on some of the nominating speeches today.

Although the sub-committee also approved today the Mexican and Armenian planks they decided to spend the day in putting the platform into final shape and to submit it to the full committee at 4 o'clock. It also was suggested that the convention might hold a night session to approve the platform and possibly begin work on nominations.

The league plank had been the only one remaining in dispute and today's agreement was held as presaging a harmonious turn to all the future platform proceedings.

How the agreement would affect the nomination of a candidate, except to hasten it, may not become immediately apparent. Senator Borah did not say definitely whether the solution would be satisfactory to Senator Johnson but the two have been so close together in the Senate and convention fight that few doubted that the plank would be satisfactory to the California candidate.

MAJ. GEN. LEONARD WOOD

The agreement came as suddenly today as did yesterday's crisis when the irreconcilables made an open threat to leave the party if the plank offered by Senator Crane, endorsing the league with reservations, were adopted.

Mr. Mills and Senator Smoot caught Senator Borah just as he was entering the sub-committee room and the three sat down on a bench outside and put their heads together over the Root proposition. Mr. Mills took the lead in urging the Idaho senator to accept. At first Senator Borah was obdurate, though he said the principle was acceptable.

Pressed on for an acceptance he protested that no one was more anxious than he for harmony, reminding his conferees that an agreement would mean as much to him personally as to any man in the convention. Encouraged Senator Smoot and Mr. Mills took Senator Borah to an adjoining room where they were joined by Senator Lodge and Senator McCormick of Illinois. In 15 minutes the agreement had been reached and within the half hour the Root plank had been given approval by the sub-committee. The committee members then sat down, however, to be sure they had the proposition in the simplest and exact language before they let its text leak out. In touching up the literary polish of the plank Colonel George Harvey helped the sub-committee members. Senator Lodge also helped remaining in the session while it put on the finishing touches.

After the agreement Senator Borah said the unanimous compromise would be submitted to the full committee within an hour with every prospect of approval and that it was planned to present the completed platform to the convention at 4 o'clock.

Senator Borah said that as the treaty plank had been approved by Mr. Mills he presumed it was also acceptable to former Senator Crane. He was understood to have kept in touch with Mr. Crane by telephone. The compromise plank was described by Senator Borah as establishing the three principles for which the irreconcilables had contended.

CHICAGO, June 10.—When the resolutions sub-committee of the Republican National convention went into session again this morning, with the League of Nations plank still threatening a party split, a tentative foreign relations plan was under consideration declaring opposition to the treaty without reservations, but favoring ratification with American rights safeguarded. The plank was framed after all night conferences in which former Senator Murray Crane of Massachusetts, leading the mild reservation group, participated.

It contained in substance the declaration submitted by Senator Crane yesterday and had not been accepted by the irreconcilables. The tentative draft, also condemned President Wilson's Mexican policy, declaring no Mexican regime should be recognized until willing and able to give adequate guarantee for protection of American rights, and pledged the party to a "consistent, firm and effective policy toward Mexico that shall enforce respect for the American flag and protect American citizens and property."

There was no direct reference to intervention but it was declared that the party should stand for "insistence on the maintenance of order in Mexico." The proposal for a mandate over Armenia was condemned and the action of Congress in passing a peace resolution approved.

It was indicated that although resolutions on the League of Nations still were in a formative stage the sub-committee probably would accept the tentative draft so far as it related to Mexico, Armenia and the peace resolution.

As the conference began in a desperate effort to conclude its work and lay a completed platform before the convention at today's session leaders on both sides of the League of Nations row expressed confidence of an agreement but admitted considerable obstacles remained. At the same time the remainder of the resolutions committee began its consideration of other planks.

RECESS UNTIL 4 O'CLOCK TAKEN IN G. O. P. CONVENTION

Adjournment For Time Follows Decision Against Hearing Speeches.

DELEGATES ARE DIVIDED

But Chairman Lodge Rules in Favor of the Ayes After Standing Vote Is Taken: Time Required to Complete Draft of Nations League Plank.

By Associated Press.

COLISEUM, CHICAGO, June 10.—While awaiting the report of the platform committee the Republican National convention held a brief session this morning, and then, much to the disappointment of the gallery, took a recess until 4 o'clock this afternoon.

When the convention assembled the platform committee was engaged on the peace treaty plank and it looked as if much time might be lost. There was consideration of plans to go ahead with nomination speeches while awaiting the platform report but there was objection to that and it was abandoned.

While the convention managers were debating what to do word came that the platform sub-committee had agreed on a report and a few minutes later Senator McCormick of Illinois, one of the sub-committee, appeared on the platform and announced a unanimous agreement had been reached by the sub-committee. It would be necessary, he explained, for the sub-committee to perfect its draft and submit it to the full committee which would consider it "line by line." Mr. McCormick presented a resolution for a recess until 4 o'clock but there was a chorus of ayes and noes and Chairman Lodge was compelled to call for a standing vote on which he decided the majority wanted the recess.

SPROUL MANAGERS, FRIENDLY TO ALL, TO WATCH FOR BREAK

Pretty Fight Ahead If This Develops, John T. King, Connecticut, Predicts.

By Associated Press.

CHICAGO, June 10.—John T. King, retiring national committeeman from Connecticut, said today that friends of Governor Sproul were not antagonizing any other candidates, as they wanted to be in a position to make the best of their opportunity if a break came among the leading candidates for the presidential nomination.

"We are good friends with all of them and if a break comes it will be a pretty play," he said.

NATIONS' LEAGUE DEBATE

Large Audience Hears Various Phases of Question at Leislering.

The Men's Sunday School class at West Leislering considered the debate held one month ago on "Woman Suffrage" such a success it decided to hold another, taking for the topic "The League of Nations," and on Tuesday a splendid representation of men gathered to hear the discussion.

R. K. Warnock opened the debate, strongly opposing American meddling or interfering with foreign politics and unequivocally protesting against entering the league. Rev. William Hamilton followed, advocating the league. Harry Tooning was next, speaking on the part Catholicism played in the World War and now in the League of Nations. He strongly opposed the league. Mr. Paul of Oakland, Md., also spoke briefly, opposing the league.

The debate was adjourned until next month. Refreshments were served by Mr. and Mrs. George Barnhart.

A radical change in the convention's plans became known around the hotels at an early hour, tonight. Instead of the usual complimentary open vote for

Senator Philander Knox, the convention will vote for Governor Sproul instead of all plans miscarry. Then with Governor Sproul out of the way the real trouble will begin.

It is said that now that the whole slate has been wiped clean by the "Senate Cabal," a number of dark horses are being warmed up. Senator Miles Pendergast, of the northwestern hop belt, after all the fun the news-

POSTMASTERSHIP IN CITY TO BE FILLED UNDER CIVIL SERVICE

Through a telegram from Congressman S. A. Kendall in Washington, The Courier is advised that the postmastership in Connellsville, vacated by the resignation of Postmaster W. D. McGinnis, will be filled under the civil service. Mr. Kendall's telegram read: "Post Office Department today advised me civil service examination for postmaster in Connellsville will be held July 20. Blanks for examination may be obtained from the Civil Service Commission, Washington, D. C." The examination, presumably, will be held at the Connellsville office where all tests for filling vacancies in this district are conducted.

At the time Mr. McGinnis was named for the office, both in 1913 and at the beginning of his second term, appointment was by the President on the recommendation of the Congressman in the district. Within the last two years the office has been placed among those filled by competitive examination.

Ralph W. McCormick has been named acting postmaster, pending the filling of the vacancy in the prescribed way.

HIRAM W. JOHNSON

SCHOOL AS THEY'D LIKE IT AT TIMES STAGED BY SENIORS

"Model High" Proves Highly Entertaining to Audience Which Packs the Auditorium.

A rapid fire variation of original comedy, puns on the faculty and classes as they would be were the "senior" ideas of the students carried out in managing them were well produced in the class day exercises of the Connellsville high school, presented at the auditorium last night.

The lines for "A Model High School," as the exercises were styled, were written and studied under the direction of Misses Jean B. Armstrong and Florence Kimball of the faculty and the dances were taught by Miss Anne Mellon, girls' physical instructor.

The originality of the exercises made them the more enjoyable. Eighty-three graduates participated. The play was given in three parts. Classes in mathematics, French, English and chemistry were held. They were much that the students were sorry to leave when the dismissal bell rang.

The "teachers" were all "good sports" and evidently did not believe in restraining their classes to disciplinary blows. Paul Collins appeared as principal and introduced each of the teachers. Miss Thelma Sease was the music instructor and her antics produced many a big laugh.

William Allen taught mathematics and got off some "hot glams" at the students and faculty. Nanna Hood taught the French class and supporting her she had several models of various types. Lloyd Monfey, in the chemistry class, used the outfit board to solve questions of 1940. Lucille Beahm, as teacher in English, could not get a word in edgewise while her class gossiped on little "affairs" in the school. Morris Melnick, as gym teacher, had a flock of "hard guys" and "strong men" who did some tumbling acrobatics.

A movie class, with Paul Driscoll as teacher, closed the exercises. A "thrilling" rescue of the heroine, Pauline Townsend, by Roger Lininger, as the hero, from Charles Henderson, the villain, received applause. J. Harold Duff was very good in his classical jazz number on the piano. He presented various popular airs and when he finally went into "high gear" and sped along about "80 per," he had the audience rocking in a laugh. He responded with an encore, "Isle of Golden Dreams."

Two dance numbers were given, one by the dream dancers and the other by a group of girls representing the study period under the new high school regime.

The program ended with the singing of the class song of 1920 by the entire body of seniors. Auditorium and balcony were filled and nearly every square foot of standing room was occupied.

SCHOOL TERM ENDS; STUDENTS TURNED LOOSE

Only Work on Hand For Today Is Issuance of Annual Reports.

COMMENCEMENT TONIGHT

Diplomas Will Be Granted at High School Auditorium to Class of '20, Largest in City's History; Teachers Leaving For Vacation Period.

Today is the last day of school in Connellsville. There were no classes in any grade, the students reporting only for roll call and to receive their final report cards.

At the high school there were no sessions whatever, the term there ending last Thursday for those who were exempt in all subjects, the other days being devoted to examinations.

A three-months' vacation is granted the students, the 1920-21 term beginning on September 13.

Tonight marks the close of commencement week of the high school. A class of 35 young men and women, 66 of the latter and 27 of the former will receive diplomas, following the usual program of such occasions.

The diplomas will be presented by R. S. Matthews, vice president of the school board. Dr. Jesse H. White, of the department of psychology of the University of Pittsburgh will make the address. The program will begin at 8:30 o'clock.

Teachers in the high school are preparing to leave for their homes as soon as possible, some going tomorrow. A few will remain here throughout the summer and others do not intend to go immediately. E. L. Folk, chemistry instructor, will remain here through the vacation period. He will be employed in the capacity of scout executive for the Boy Scout troops of the city.

C. J. Alderfer will not leave at once. He will be employed by the West Penn Railways company. He will also be a member of the company's baseball team.

FAYETTE MEN GRADUATE

Three Men From County in Class of Washington & Jefferson College.

WASHINGTON, Pa., June 10.—At the 119th annual commencement exercises of Washington & Jefferson college Wednesday a class of 65 young men was graduated.

The Grim Reaper

MRS. THOMAS J. SMITH.

Following an illness of complication of diseases, Mrs. Eliza Painter Smith, 54 years old, wife of Thomas J. Smith and one of the most widely known residents of the West Side, died Wednesday afternoon at 3:55 o'clock at the Allegheny General hospital, Pittsburgh. Mrs. Smith had been ill for the past seven weeks and on Tuesday afternoon she was taken to the hospital by her daughter, Miss Anna Smith, to consult a specialist and receive medical treatment. Yesterday morning her condition became more critical and despite the best of medical attention death resulted. Mrs. Smith's death came as a great shock to her many friends in Connellsville and community. She was born in Worcester, England, January 28, 1866, daughter of James Painter, deceased, and Elizabeth Painter Price. When a small child she came to this country with her parents, who settled in Mahoney City, Pa. October 26, 1884, she was married at Mahoney City to Thomas J. Smith and virtually all her married life was spent in Connellsville and vicinity. For the past 16 years she had been a resident of Connellsville. She was a devout member of Trinity Episcopal church and an active worker of the Woman's Guild of the church. By her kind and congenial manner she won the friendship and esteem of all with whom she came in contact. In addition to her husband, Mrs. Smith is survived by the following children: William Smith, with the Army of Occupation in Germany; Mrs. Stanley Jackson, Jacksonville, Fla.; Thomas Smith, Jr., Veneta, Pa.; Mrs. Charles Alter, West Newton; Mrs. George Blair, Connellsville; James Smith, Miss Anna Smith, circulation bookkeeper for The Courier, Mary Alice and Ruth Smith, all at home, and Miss Clara Smith, a student nurse in the Allegheny General hospital, Pittsburgh. Her mother, Mrs. Elizabeth Painter Price, of Reading; two sisters, Mrs. Clara Richard, Mahoney City, and Mrs. John Littlehale, Reading; and one brother, James Painter, Reading and five grandchildren, Cora Eliza Alter, Thomas Allen Blair, Dorothy, Junior and Robert Jackson, also survive.

The body, accompanied by Mr. Smith and daughter, Miss Clara, arrived here this afternoon and was removed by Funeral Director Charles C. Mitchell to the Smith home in Ninth street, Greenwood. The time of the funeral will be announced later.

DR. JOHN CALVIN MELOY.

On the 60th anniversary of his graduation from Washington & Jefferson college, Rev. Dr. John Calvin Meloy, 84 years old, died Wednesday at his home at Avella, Pa. He was born in Buffalo township, Washington county, and was known in and about Connellsville. In 1874 he accepted a call to the pastorate of the First Presbyterian church at West Newton and preached there continuously for 40 years, retiring in 1914 and moving to Avella.

RALPH WARNICK.

The funeral of Ralph Warnick was held yesterday afternoon at 2:30 o'clock at the Mount Olive Baptist church. C. W. Olewine, the pastor, officiated. The pallbearers were Kenneth Warnick, Wade Peters, Woodrow and Robert Rice. The interment was made in the church cemetery.

NEW TASTELESS CASTOR OIL BOTTLED IN THE LABORATORY

New Tasteless Castor Oil Sold Only in Bottles Labelled Kellogg's Tasteless Castor Oil.

Kellogg's Tasteless Castor Oil is bottled in the laboratories of Spencer Kellogg & Sons, Inc. Insist on Kellogg's Tasteless Castor Oil, laboratory bottled with directions on the label, if you want a really tasteless castor oil. It's the same good old-fashioned castor oil that doctors prescribe, with the disagreeable taste removed. Put up in airtight bottles, properly labelled. Kellogg's Tasteless Castor Oil comes to you with all the strength and purity of the good old family remedy. But that nauseating taste has been absolutely removed. Think what a boon this is to mothers and the little folks! No coaxing nor bribing. Even grown-ups will appreciate this new form of the good old family remedy. You can now get Kellogg's Tasteless Castor Oil in two sizes, 36c and 85c. At all good druggists—Adv.

RAIL SITUATION IS IMPROVING BUT WILL LONG BE BAD

More Business Than Forces and Facilities of the Roads Can Handle.

LARGE TONNAGE GROWTH

Since Outbreak of World War, With Inadequate Expansion; Will Take Months or Years to Catch Up With Nation's Commerce Requirements.

"The transportation situation is bad, it is getting better, but the improvement is small and slow, and no substantial improvement in it can be made for months under any system of management without heroic efforts," says the Railway Age in its current issue.

"The foregoing statements may sound pessimistic, but they are the plain truth, and it is imperative that the American people should know the plain truth it is the railroad problem."

"Why is the present transportation situation so bad? Because even before the railroad strikes came the traffic offered was substantially greater than the roads could handle, and the strikes reduced the amount of business they could move."

"Although the results of the railroad strikes have been serious, they have been exaggerated. The reports of the United States Geological Survey show that between January 1 and May 1 the railways moved 175,114,000 tons of bituminous coal. This was 33 1/2 million tons more than were moved during the same period of 1919, and only 8,900,000 tons less than were moved in the same period of 1918. They moved 27,731,000 tons of anthracite coal during the same period, an increase of 2,600,000 tons over 1919. The existing shortage of coal is not primarily due to reduced transportation caused by the recent railroad strikes, but to the reduced production and transportation of coal caused by the coal strike in November and December. With respect to the general transportation situation, the facts show that on April 24, after the strikes had been going on for three weeks, the accumulations had increased to 269,069. On May 8 they had been reduced to 201,392."

"Why does the situation superficially appear to be growing worse when the facts show that it is getting better? Because there is so much more freight available than the railways can handle with their existing facilities and forces that they may move more business every day and yet day by day get farther behind the business demanding movement."

"There are just three things which will help to avoid the disaster, industrial and financial, which is unavoidable unless the railroad problem is solved. These things are: First, frank recognition of the fact that under any system of management, government or private, the railways cannot be made for months and even years satisfactorily to handle all the commerce of the country. Second, active cooperation between the Interstate Commerce Commission, the shipping interests and the railway managements to enable the railways during the critical period we are now passing through to handle all the business with their existing facilities that is physically practicable. Third, allowing the railways to charge rates which will enable them to raise vast amounts of capital to invest in new facilities."

"Unless the railway companies are given opportunity to earn adequate net returns, the transportation conditions which are now causing so much trouble will be chronic, not merely temporary."

"The conditions now prevailing were not unforeseen. Year after year they have been predicted as the certain results of the governmental policies followed in dealing with the railways."

Scouts to Hike Friday. Connellsville scouts will hike to Randolph's farm on Friday night under the direction of Scout Executive Edwin L. Polk and Scout Commissioner R. C. Witt. The scouts will leave about 8:30 o'clock and remain over night. The hike was postponed last week because of the heavy rains.

Pine Tree Patrol Will Present Program of Local Talent. A musical for the benefit of the Pine Tree Patrol, Boy Scouts, of this city, will be given next Thursday night at the high school auditorium. The members of the various scout troops are selling tickets.

The program has not yet been announced but there will be vocal numbers by the West Penn quartet and Davis' trio. Readings will be given. The scouts are now rehearsing for a one act play "A Stronous Afternoon" which will also be presented.

CLOTHING AND FURNISHINGS

Reduced

The unsettled condition of the market which is causing the unrest in the mercantile business is compelling the overstocked wholesalers to dispose of the surplus stocks at sacrificed prices. Through our recent trip to the Eastern clothing markets we have had the opportunity of closing out different lots of merchandise at figures very much below the prevailing market prices. We are going to place this merchandise on sale and in including our stock of Kuppenheimer and other good suits we will give the people of Connellsville and vicinity the opportunity of buying first class up-to-date merchandise at prices that will be amazing.

Girls! Buttermilk Creates Beauty Overnight

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic, but the most wonderful thing about it is the fact that it turns the dulled and most distressing complexion to radiant beauty and makes red or rough skins snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least skininess or greasiness of the skin. It is absolutely harmless and will neither produce or stimulate the growth of hair. Within twenty-four hours this wonderful combination called Howard's Buttermilk Cream will work a marvellous transformation. C. Roy Hazel, Connellsville Drug Co., can supply you. Manufactured at Buffalo, N. Y., by Howard Bros. Chemical Co.—Adv.

CONNELLSVILLE PEOPLE

Are Taking Kindly to Simco Salve and the Connellsville Drug Co. and the Broadway Drug Co., Scottsdale, are reporting pleased customers.

SIMCO SALVE is immediately active in reducing the soreness of the tender, sensitive lungs of infants or the lungs of the sturdy parent alike, thereby reducing the fever.

The magic wonder is that relief comes so quickly. It frees clogged nostrils and inflamed air passages in the head, which inflammation sometimes leads to catarrh and impaired hearing.

SIMCO SALVE is a modern, efficient ointment, active in killing germs, and therefore gets prompt results when used for eczema and other skin troubles. Distressing, tortured skin that burns like fire is soothed immediately. Those common, continued ear beatings and nose sores are checked by inserting small quantities of SIMCO SALVE.

It is perfectly pliable and is a mighty good modern liniment for all liniment needs.

When you buy SIMCO SALVE what you pay for is satisfaction and that is what we guarantee to you.

Better be prepared at once; go to the Connellsville Drug Co. or the Broadway Drug Co., Scottsdale, today and get a jar. Price, 30c, 60c and \$1.00 per jar. If your druggist does not keep it, send us 25c and the parcel post will bring it to your door by return mail. Wm. M. Simpson Drug Co., Wholesale Druggists, Wilkinsburg Station, Pittsburg, Pa.—Adv.

HELPFUL SERVICE

HOOVER'S MICHIGAN TRIP EXPENSIVE

Went to Mount Clemens, But Got No Help, Finally He Tried Nerv-Worth, and It Soon Gave the Desired Results.

"I went to Mount Clemens, Mich., for treatment for rheumatism," said S. D. Hoover, N. Canton, Ohio, "and this cost me quite a sum of money, and I got poor results. After coming home, I consulted physicians, who told me I would have to go to a hospital, which would add more expense. I was nervous, and I had indigestion, and a very poor appetite. After taking two bottles of Nerv-Worth, I am back at work. I am now feeling fine, thanks to Nerv-Worth." Hundreds of cases similar to the above have found that Nerv-Worth gives the desired results when everything else has failed. Nerv-Worth does the work because it acts in a scientific and sensible way. Many of the ills known to man are due to a bad stomach, nervous trouble, or impurities of some sort in the system. Nerv-Worth acts against stomach and nervous disorders, and their attending ills, in the most effective manner. It aids digestion, neutralizes excess poisonous acids, drives out impurities, gives nerve force, aids nervous conditions and at the same time it tones and invigorates the entire system, restoring vim and vigor to men, women or children. For many years Nerv-Worth has always been sold on a money back guarantee because the makers know that it does the work. If you suffer, buy a bottle of Nerv-Worth. Take it according to directions, and if you are not benefited, your money will be refunded.

Sold on a money back guarantee by the Connellsville Drug Co. and all leading druggists everywhere.—Adv.

At the Theatres

THE SOISSON.

"DANGEROUS DAYS."—By Mary Roberts Rinehart, one of America's leading writers, is an interesting attraction today. One interior scene depicts the office of the munitions plant. The crash of the explosions in various parts of the plant wrecks the office completely. Miss Barbara Culliton, in the role of Audrey Valentine, remaining in the office, and with wreckage falling all about her, operates the switchboard and sends for help. She narrowly avoided injury when the scene was taken, heavy timbers and pillars toppling close to her.

Explosives of much force were used in the picture. Some of the scenes were taken about the plant of a large iron works in Los Angeles. The workers were the object of a bomb plot, in reality, some time ago, and when, at night, persons in the vicinity heard the thunder of the explosions as the pictures were being taken, some were terror-stricken, believing it a repetition of the previous effort to wreck the plant.

THE PARAMOUNT.

"CAPTAIN SWIFT"—With Earle Williams in the leading role, is being shown today. There is nothing of the vicious in the character of Captain Swift, and no scenes are shown on the screen showing him in this light. A prologue, with its scenes laid in the bush country of Australia, where he plied his nefarious trade, give atmosphere and lay the foundation of the story to come. Rather than showing Captain Swift as a crook, a bandit, a robber and a thief, he is shown with nothing but kindness in his heart. In making his escape across the hot, sandy deserts after a bank robbery he stops to succor a prospector at the imminent danger of being captured. And again he is shown releasing a man he has held up because his victim has shown a brave front. It was his wont to rob only those who could afford to lose, and most of his ill gotten gains went to charity. These scenes play an important part in his following history, as shown on the screen. He becomes a real hero. No harsh thoughts are given to his unfortunate past, and there is nothing but sympathy and best wishes for Captain Swift, when it looks as if he must give up his life's sweetheart and return to Australia for a term in prison.

PAINS NEARLY DOUBLED ME UP

Nothing Helped Me Until I Took Lydia E. Pinkham's Vegetable Compound.

Wyandotte, Mich.—"For the last four years I have suffered off and on with out help. I have had pains every month so bad that I would nearly double up. Sometimes I could not sweep a room without stopping to rest, and everything I ate upset my stomach. Three years ago I lost a child and suffered so badly that I was out of my head at times. My bowels did not move for days and I could not eat without suffering. The doctor could not help me and one day I told my husband that I could not stand the pain any longer and sent him to the drug-store to get me a bottle of Lydia E. Pinkham's Vegetable Compound and threw the doctor's medicine away. After taking three bottles of Vegetable Compound and using two bottles of Lydia E. Pinkham's Sanative Wash I could do my own housework. If it had not been for your medicine I don't know where I would be today and I am never without a bottle of it in the house. You may publish this if you like that it may help some other woman."—Mrs. M. A. B. STENZEL, 129 Orange St., Wyandotte, Mich.

Kills Pesky Bed Bugs P. D. Q.

TROTTER ADDS ANOTHER TO SCORE, BEATING LEISENRING

Home Run by Smitkey Proves to Be Feature of the Game.

COUNTY LEAGUE PROSPECT

Trotter defeated Leisenring No. 2 yesterday by the score of 7-3. The feature of the game was a home run by Smitkey. Swope, pitching for Trotter, held the Leisenring crowd safely, allowing but six hits. This was the opening game of a series of 11 arranged by the near locals. Today the Trotter team plays at Connelville No. 2. The score:

LOCAL B. & O. TEAM

LOOKS LIKE A WINNER

The Baltimore & Ohio baseball league management in Baltimore evidently figures the local team a winner of the Connelville division, as headquarters has issued a schedule that embraces the local toppers. Only two teams remain in the race for the local division championship, Smithfield and the local outfit, with everything in favor of the locals. Should they win out they are booked for some extensive traveling, judging by the schedule as follows:

June 20—Connellsville at Cumberland.
July 2—Pittsburg at Connellsville.
July 5—Connellsville at Baltimore.
July 7—Connellsville at Wheeling.
July 14—Connellsville at Gratton.
July 21—Connellsville open.
August 7—Ohio River (Petersburg) at Connellsville.
August 14—New York at Connellsville.
August 21—Connellsville at Charleston.
August 28—Mt. Clare, Md., at Connellsville.

The games on the Connellsville schedule at home will be played in the mornings at Fayette field, starting at 10 o'clock. This will only be for two or three games at most, and the Connellsville club will arrange games so as not to conflict with the playing of the Baltimore & Ohio games.

STAR JUNCTION IN PROPOSED CO. LEAGUE

Henry Wilson, the veteran baseball player of Fayette City, is putting his feelers out among various towns in Fayette county with a view to organizing a six-town league of baseball clubs. He has written a letter to the managers of teams in six towns asking their opinion about the advisability of promoting the project.

Requests have been sent to Brownsville, Star Junction, Masontown, Point Marion and Republic for expressions on the matter. Fayette City would make the sixth club. It is proposed to play two games a week, one at home and one abroad, Saturdays, Sundays and holidays.

If enough teams can be interested a meeting will be called at once to organize and prepare a schedule. With the interest shown in the sport in the various towns of the county the project looks good to the fans and it is to be hoped Wilson will be successful in rounding up a good league.

MUNHALL SATURDAY

With the Munhall Firemen and Independents game but two days off speculation is rife as to who will win. The Munhall team is exceptionally strong in the pitching department. Herrod who joins the local outfit in this melee should be in fine shape to hold the visitors safe but can he stand off this clotting bunch of sluggers. Herrod, while a classy pitcher, has not been called upon to face an aggregation whose fame on the diamond is brought about by their work, such as the fire laddies.

HOMESTEAD GREYS COMING

After much dickering and switching of the Independents schedule a date has been set for the appearance here of the famous Homestead Greys. This busy lot of toppers will play the Independents here on July 17. Irwin was another team signed up today. The Irwin crew is booked to pay us a visit on July 10.

BASEBALL STORIES

Ehmske is the tallest man on the Detroit club.

Mogridge is not only left handed but is also left footed.

The Cleveland club has sold Pitcher Jesse Petty to Indianapolis.

Pitcher Snyder of the Senators has been dubbed "Catsup" by his mates.

Manager Cravath is making good by running a team entirely on his own lines.

Billy Southworth is amassing a nice record for stolen bases thus far this season.

Aaron Ward of the Yankees hits a ball as hard as any young player in many a day.

Manuel Cueto, sold by Cincinnati to Seattle, has joined Joe Harris' team at Franklin, Pa.

Helmie Schultz, who pitched for the Toledo club several seasons, is now a member of the Brewers.

New York critics are hinting at a reconciliation between John McGraw and Helmie Zimmerman.

Big crowds at the Western league openings indicate the Turney class A wheel is in for a good year.

The Phils are a neatly uniformed club—a symphony in light gray—stockings and caps to match.

Tris Speaker says Dick Niehaus will do and that he is going to be just the southpaw the Cleveland team needs.

Catcher Yelle and Infielder Siglin of the Tigers have been released. Yelle goes to Frisco and Siglin to Portland.

Mayer, the rookie infielder New Orleans took on from the New York Giants, has been transferred to Chattanooga.

Stout City released Catcher Johnny Carr and Pitcher Paul Brusky to Redfield of the South Dakota league, under option to recall.

Pitcher Tom Hughes, formerly a member of the Boston Nationals, has been signed by the Shreveport club of the Texas league.

Dick Wade, the Duluth youngster and former Minn. leaguer, has been attracting all sorts of attention in Association circles.

The Giants may win the flag in the National league, as some of the New York critics predict, but they will have a long way to travel.

Ward continues to play a brilliant game at third base and he is stinging the ball hard. Most of his hits smoke their way to the outfield.

Every once in a while John McGraw springs a player who is the real goods. Looks as if he has uncovered another worth-while star in Frisch.

Walter Smallwood, a youthful hurler, has been turned over to Terre Haute by the Reds. Moran thinks enough of him to keep a string attached.

St. Joseph's new first baseman, Groth, comes from the Chicago Cubs. His experience has been in independent baseball around Chicago.

Billy Webb, shortstop, secured from the Pirates for the Akron club, is coming through as one of the international league's leading sluggers.

Jack Letcher, president of the Western association, who lives in Tulsa, was given the honor of pitching the first ball in the opener at Tulsa.

Mike Kelley seems to have dug up a good one in Johnny Overlock, the Chicago semi-pro, whose debut was a four-hit shutout against Kansas City.

Several candidates tried for the third-base position on the Browns, but the start of the season showed old reliable Jimmy Austin again on the job.

The Kansas City club has signed a pitcher named Wilfred De Tommaso, who is just out of the army and before going into service played semi-pro ball.

Sammy Hale, Texas league recruit, is showing so well with the Tigers that Jennings intends to give him a full opportunity to make good. He is an infielder, and prefers to play at the hot corner.

SCRIBES PICK ATLANTA

A symposium published by Will Hamilton of the New Orleans Item shows the majority of Southern league sporting editors pick Atlanta to finish first in the race this year and Little Rock second. There is a wide difference of opinion as to the third place team, with advocates of New Orleans, Nashville, Memphis and Mobile all getting votes. Birmingham and Chattanooga are counted among the also rans.

GEORGES REVIVES OLD TRICK

French Fighter Imitates Bob Fitzsimmons and Stanley Ketchell in Use of Shift.

Americans who have seen Georges Carpentier in action say that one of his best tricks is a shift like that employed by old-time knights of the padded mitt. He intentionally misses with one hand and then drives the other through. Bob Fitzsimmons and Stanley Ketchell were the most noted

RED PIMPLES ALL OVER FACE

Itched And Burned Continually. Cuticura Heals.

"I had pimples and blackheads all over my face. They came to a head, and were red and of a medium size. They were continually itching and burning and I irritated my face by scratching. I lost many an hour of sleep, and my face was disfigured. I had the pimples for one summer. Then I used Cuticura Soap and Ointment and after using three cakes of Cuticura Soap and three boxes of Cuticura Ointment my face was completely healed." (Signed) Miss M. White, Box 18, Hopwood, Pa., May 26, 1919.

Cuticura Toilet Trio—Consisting of Soap, Ointment and Talcum, promotes and maintains skin purity, skin comfort and skin health when used all day long. Cuticura Soap 25 cents each. Sample each free by mail. Address: "Cuticura, Dept. A, Malden, Mass." Cuticura Soap shaves without stings.

"TIZ" PUTS JOY IN SORE, ACHING FEET

"My, How 'Tiz' Gladdens Tired, Swollen, Burning Feet—It's Glorious!"

Ah! what relief. No more tired feet; no more burning feet; no more swollen, aching, tender, sweaty feet. No more soreness in corns, callouses, bunions.

No matter what ails your feet or what under the sun you've tried without getting relief, just use "Tiz." "Tiz" is the only remedy that draws out all the poisonous exudations which puff up the feet. "Tiz" cures your foot trouble so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore and swollen. Think of it! no more agony from corns, callouses or bunions.

Get a box at any drug store or department store and get instant relief. Wear smaller shoes. Just once try "Tiz." Get a whole year's foot comfort for a few cents. Think of it.—Ad.

Says Every Railroad Man Should Read This

Peterson's Ointment Co., Inc., Buffalo, N. Y. Dear Sirs: I was afflicted with what the doctors said were Varicose Ulcers, and up until about five weeks ago I have been treating them for about a year and five months.

With all the treatments that were prescribed to me by several doctors I received little benefit, and they kept spreading and gave me much distress and caused me to quit my work.

I was induced by a brother brakeman to try Peterson's Ointment, and after I had used two boxes I saw the wonderful results. You can tell suffering ones troubled with ugly, painful and horrid ulcers that your ointment is a cure for them, when they try it. I have tried about everything. Thanking you many times over I am, your happy friend, Chas. J. Heyser, Battle Creek, Mich., 43 Greenwood Avenue, January 12, 1918.

I know and dozens of people write me, says Peterson of Buffalo "that Peterson's Ointment also cures eczema, old sores, salt rheum, piles and all skin diseases, and all druggists sell a big box for 25 cents." Mail orders filed by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.

LIKE EACH OTHER'S COMPANY

Stones Found in Nevada Seem to Have a Distinct Aversion to Being Separated.

In Nevada are found curious mineral specimens known as "sociable stones." No better name could be given them, since when a few are distributed over a level floor two or three feet apart they will begin to move toward one another to a common center with an alacrity that is ludicrous.

Camper's first noticed these stones. They had used wrapping paper for a tablecloth and weighted the corners with some of the stones spread over the level top of a boulder. A few moments later one of the men noticed that the paper was slipping in the corners and that the four or five stones were huddled in a group in the middle of the paper like a nest full of eggs. He thought the wind was responsible, straightened them and added more stones.

The next time he looked around the stones were back in the heap again. Once more he replaced the stones and sat down to watch them. They began to roll and hitch along toward one another again until they were in a pile.

Facts for Bond Buyers

It is a matter of record that history repeats itself. Right now the same general conditions prevail which have always existed after great wars. Judging from the past, a decrease in the high cost of living will mean an increase in the prices of bonds. Authorities seem to agree that we have passed the peak of inflation.

The Man Who Wasn't Himself

By
ROBERT AMES
BENNETT

(Copyright, by W. G. Chapman)

"Leave him to me, daughter," interposed the physician, and he fixed his shrewd gaze on Clinton's angry face. "My dear boy, in many cases of amnesia the patient not only forgets his past life but also forgets that he has forgotten. This amounts to dissociation of the personality."

"This medical jargon, sir, is, to say the least—"

"One moment, please. Have you recently met with a shock, such as that of a railway collision?"

"I was in a motor accident. But that was more than a year ago."

"Over a year ago," echoed Amy. "What a fabrication!"

"Please do not interrupt," admonished Doctor Kirkland. He nodded gravely to Clinton. "More than a year ago, you say? Was it a severe accident?"

"Only to the car. I was merely stunned."

"Knocked unconscious! H'm! That and the preceding psychopathic condition—quite in line with the other cases reported."

"Doctor Kirkland," impatiently retorted Clinton, "certain as I am of my present sanity, much more of this solemn twaddle will drive me mad."

"No, you need have no fear of that. Only you must be calm and reasonable. You will understand how conditions such as yours develop if you will kindly permit me to explain about the peculiarities of amnesia—the peculiar results of the loss of the time mem-

"I shall at once return to the station,"

ory, combined with the frequently associated phenomena resultant in dissociation, hallucinations—"

"All of you are subject to hallucinations when you mistake me for that Will Lowrie!" hotly declared Clinton. "Now, now, my dear boy, be calm," soothed the physician. "This excitement—"

Clinton sprang up, his blue eyes flashing with anger. "Enough, sir! I shall at once return to the station. As I have agreed to send on for proofs of my identity I shall do so. They will be mailed direct to you. In the meantime you can telegraph to your missing friend or to those who have charge of him. But I will stay here no longer."

The cold anger and determination of the young man's tone struck speechless even the physician and the debonair Bemm. Ellen looked helplessly from her father to her equally mute mother. The hush that had fallen upon them was broken by the quiet voice of Amy, asking in a matter-of-fact tone: "When did you say your train leaves?"

"Shortly before midnight," answered Clinton, frowning at Bemm.

"It's pretty late in the day to get a berth," remarked the girl. "But if they're all taken I suppose you can sleep in the smoking room."

"I have a stateroom engaged through to the coast," explained Clinton, his voice softening, though he continued to frown at Bemm.

Amy smiled across at Ellen, and

answered artlessly: "Of course, you old stupid! But I shall need the stateroom, so unless you have luck—"

"Really, Miss Lowrie, I fail to understand—"

"Didn't I call you an old stupid? You say you won't stay. Well then, I am going along with you."

"But—but, Miss Lowrie, I cannot—"

"Perhaps you can't, I can," smilingly declared the girl.

Clinton turned appealingly to Dr. Kirkland. "This is—it cannot be permitted! Surely you'll not allow her! Send for her mother!"

"There isn't time," said the girl. "Anyway mamma never would forgive me if I let you go off alone."

"Good heavens! You really mean to—"

"Of course. You simply must have someone to take care of you till you come to your senses."

He wiped the perspiration from his forehead. "If only I could make you realize—To let you go would be impossible. I must stay."

"Stay? You mean stay here and rob me of my trip?" pouted the girl.

"Very sensibly!" exclaimed Mrs. Kirkland.

"Unless you drive me mad!" qualified Clinton. "I shall stay in Dover, but on condition that Doctor Kirkland shall at once telegraph to inquire about Mr. Lowrie."

"The telegram shall be sent to-night," said Doctor Kirkland. "No doubt we shall hear from the sanitarium some time tomorrow."

"Very well. I suppose I can keep sane that long. May I ask you to send telegrams for me to— No, that will not be necessary. The answer to your telegram will prove that I cannot be Mr. Lowrie."

"Mr. Lowrie!" chuckled Bemm.

Clinton flushed and almost snatched out a wallet, which he opened so hurriedly that the contents fell from it. Among them was a bank draft and a yard long railroad ticket. As he caught these from his lap to hand to Doctor Kirkland, Bemm stooped to pick up the baggage check that had fallen on the floor. With them lay a numbered brass piece such as is given out as a receipt at checking counters.

When Bemm handed Clinton the paper baggage check the metal check was not with them nor was it on the rug. The owner did not notice its absence. He was pointing to the name on the ticket and draft.

"There is clear proof of my identity," he said. "Stupid of me not to have thought of it before. Draft drawn in my favor, my signature on the ticket."

Bemm glanced at the signature and said a trifle sharply: "That's not your writing."

"You mean it is not Will Lowrie's," corrected Clinton. "It is my name, 'Richard Clinton,' and my signature."

"One of the results of dissociation is a change of handwriting," observed Doctor Kirkland in his most cocksure tone.

"There is the bank draft," argued Clinton. "It is drawn on San Francisco. I shall cash it tomorrow."

Bemm shot a quick glance at the physician and lightly remarked: "You'll need to be identified. I'll be glad to introduce you to your bank."

"Mine?"

"Your other self's bank," checked Bemm.

"As Will Lowrie, you know, you were confidential agent and broker of the Fourth National," explained Doctor Kirkland. "Charlie and I have our accounts there, so it will be less awkward for you to present your draft where he and I can explain the situation."

"Expialia!" muttered Clinton. "Well, I suppose I must make the best of it. Now if you'll kindly give me your office card and the address of the bank and direct me to the nearest hotel."

"Listen to him!" cried Amy. "Hotel!—when he's at home! That comes of traveling for months."

"Miss Lowrie," he gravely replied, "your mother is away. I can no more stay here than I could have agreed to your traveling alone with me."

"Isn't he the silliest?"

"I mean it."

"Mamma, what if Amy should ask us to stay tonight?" suggested Ellen. Clinton looked about him with the alarm of the bird under the descending net of the lowlier. "Mrs. Kirkland, I must beg you—" he protested.

The lady smiled reassuringly. "Ellen has solved the difficulty. We may call it a house party, and you a guest as well as she and I."

"Leaving me out of it?" complained Bemm. "Why shouldn't he put up at my lodgings for the night?"

"Just the thing," agreed Clinton. "Very good of you Mr. Bemm. It will—will save Miss Lowrie the trouble of—"

"Botheration!" exclaimed Amy. "If Charlie takes you away he need never show his face here again. Besides he's not going to, because you're going to stay home."

"That settles it," declared Doctor Kirkland. "When Tomorrow puts her foot down—Come, Charlie. Good night, my dear. Girls, don't let him escape you."

"Don't worry," replied Amy. "Ellen and I shall treat him so nice that he won't want to leave."

"I'd be glad to stay even if you beat me," suggested Bemm.

"That would make it quite a house party," observed Ellen with a wistful glance at Clinton.

Amy laughed outright. "She and Charlie are going into horticulture. They think two peaches will make two pairs if provided with the correct accessories."

"Is there a man in town more correct than yours most devotedly?" quipped Bemm.

"The only gentlemen invited to this house party are brothers," bantered the little hostess. "Do join us."

"Thanks! Good evening, everybody. Meet you at the bank, Will," Bemm covered his hasty retreat. "I'm coming, doctor. Leave the door open."

Even Clinton smiled at the precipitate flight of the young elegant.

"Trust Little to have his room all ready," said Amy. "I'll put him to bed right away. Come brotherkins, else the sandman will catch you. It's time you toddled off to 'umberland'."

Clinton looked to Mrs. Kirkland for succor. The lady smiled and graciously wished him, "Pleasant dreams!"

"Good night!" murmured Ellen. She impulsively rose and started toward him, only to stop in sudden remembrance and stand blushing between dismay and half-hearted expectancy.

"Good night!—excuse me—good night!" he stammered and he hurried out past Amy into the hall.

She darted after him, but did not overtake him until he paused in the upper hall before the door of a deliciously dainty pink and ivory boudoir. She placed a caressing hand on his shoulder when, at the sight of the feminine furnishings of the room, he would have stepped back.

JUST LEAVE IT TO TERRY

Harvard Authorities and Students Rely on Memory of Colored Human Encyclopedia.

No one knows how he does it. He doesn't know himself. Yet Terry never forgets a face or a name. He never took a memory course. He never did any special mental gymnastics to develop his memory. He has no theories on the association of ideas. He has no little tricks, such as remembering a name like Carpenter because he is built like a lathe. He simply remembers, that's all.

Terry is a roly-poly little colored man who for 19 years has been the human encyclopedia of the recorder's office at Harvard college. Every Harvard man since 1900 knows Terry. The remarkable thing is that Terry knows every one of them. More than 10,000 men have come and gone in Terry's time. Terry remembers them all.

His extraordinary faculty for remembering names and places caused his being installed in the position of living encyclopedia, not only on all Harvard men, but on Harvard history generally. When members of the faculty want to know the date of the fire in Weld hall, or when the course Government 7B was started, or the names of the most recently elected overseers, or the score of the Harvard-Williams baseball game ten years ago, or any miscellaneous bit of Harvardiana they don't take the time to look it up. They ask Terry. And Terry always knows.

The Reason.

"Here's a magistrate reproves a man severely for using only one arm when he is driving his car with a girl."

"I suppose the reproval was for letting his energy go to waste."

Clean Up Poison Soaked Kidneys Advises Dr. Carey

Thousands Die Every Year Because They Allow Poison Deposits to Accumulate in Kidneys.

Don't flush your kidneys with harsh makeshifts says Dr. Carey, they are too frail and delicately constructed to be so treated.

For 40 years I have been prescribing Marshroot for kidney and bladder ailments and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price.

A severe kidney disease thousands die of every year who ought to be enjoying the blessings of life and health.

If you have specks floating before the eyes, puffs under eyes, clammy feet or moist palms backache or sideache you ought to get a bottle of Dr. Carey's Marshroot right away.

It has cured thousands of cases of kidney and bladder disease and is the medicine you can always depend upon.

IMPORTANT—Dr. Daniel R. Carey has been a practicing physician for many years and his great prescription, "Marshroot," has cured thousands of sufferers from kidney and bladder troubles. It is not a patent medicine and is only sold through drug stores in order to accommodate his patients.

HOME MADE RECIPE CATARRH AND COLDS

Nonexpensive—Cut This Out.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Ask your druggist for three quarters of an ounce of Mentholated Aromes and pour it into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passages and throat so clean and healthy that germs of flu or any other germs will have a hard time gaining a foothold.

WAS NERVOUS AND RUN DOWN

RESTORED TO NORMAL HEALTH BY BIO-FEREN

"I feel I owe you people a word of gratitude for the benefit I have received in using your wonderful remedy—Bio-Feren Tablets, which have completely restored me to normal conditions," says Joseph E. Webb of Muncie, Indiana.

Bio-Feren is without doubt the grandest and quickest remedy for nervous, run down, weak, anemic men and women ever offered direct through the druggists and is not at all expensive.

Take two after each meal and one at bed time, and after seven days take one after each meal and one at bed time until the supply is exhausted.

Then if you feel that any claim made in this special notice is untrue—if you are not in better health—if you do not feel ambitious, more vigorous and keen minded, yes, twice as much as you did before, the druggist who sold you the tablets will gladly hand you back just what you paid for them.

All druggists in this city and vicinity have a supply on hand, or can easily get it for you.

Seven a day for seven days—Wonderful results.

Sweetness of Revenge.

Timothy Brown was a commercial traveler and a valuable asset to his employers.

On one of his periodical rounds he included in his list of calls a certain yarn merchant, Jonas Perkins by name—a crochety, ill-natured individual—who invariably treated Timothy with the greatest of discourtesy, and who on more than one occasion had torn his card up in his presence and thrown it on the floor. As becomes a good commercial traveler, however, Timothy was undisturbed and vowed to be revenged.

In due course he called on his friend again and presented his card.

"Hailon!" shouted old Perkins, giving the card the usual wrench. "What the—"

But here he interrupted himself with a yell of pain, accompanied by a miniature war dance.

Timothy's card was made of unsuspected tin—London Tin Bitts.

Takes Hold and Helps.

Colds that "hang on" should be gotten rid of for no one can stand the strain of hacking cough, disturbed sleep and irritation of throat and lungs.

Maria Houser, Freeport, Ill., writes: "I had more or less of a cough for years and I have taken quite a number of medicines. None of them takes hold and helps like Foley's Honey and Tar. Talc old, reliable cough syrup promptly helps coughs, colds, croup and whooping cough. Contains no opiates. Children like it. Sold everywhere.—Adv."

Cut This Out and Take It With You.

The safe way is to cut this out and take it with you so as to make sure of getting Chamberlain's Tablets. You will find nothing quite so satisfactory for constipation and indigestion.—Adv.

DANGER TO STEADY RECOVERY IN COKE IMPENDS IN LACK OF CARS

None Available Yesterday and None Are Promised Before Saturday.

INCREASE OF 4,000 TONS

Last Week, Mainly at Furnace Ovens; Memorial Day Had Little Effect; Lake Erie Road Makes Little Headway in Restoring Empty Car Service

From The Weekly Courier.

The observance of Memorial Day, which was only partial at the coke plants, did not curtail coke output to an appreciable degree. It only served to prevent the increase in tonnage being more than it was, as compared with the week preceding which had developed a gain of upwards of 7,500 tons. Last week's increase was upwards of 4,000 tons which was further proof that the recovery from the last low tide during the week of May 15 is progressing steadily, in which respect it is keeping pace with the week-to-week upward trend of a year ago.

There impends the danger, however, that a halt will come this week in what has thus far been confidently counted upon as a steady but slow return to better shipping and operating conditions. This time, just as before when everything was apparently smooth sailing, an interruption to the car supply obtrudes to mar the situation.

While there was a fair distribution on Monday and Tuesday as distribution for many months have been rated, the failure of supply yesterday, together with notice from the railroads that practically no cars will be available until Saturday of this week, all the hopes and expectations of uninterrupted development toward better car supply and service and larger production are dashed to pieces, at least temporarily.

Until yesterday the railroads were able to maintain rather better average than could be expected under the general conditions in transportation. The single exception in this respect was the Pittsburgh & Lake Erie road which has thus far made comparatively little headway in handling and delivering empties through the Newell yards, although it has been taking out loads from plants served by the Monongahela railroad. The Pennsylvania railroad had an average distribution of coke cars of 58 per cent and 20 per cent of cars last week. Shipments last over the Pennsylvania gained about 25 per cent last week but the day to day accumulations in the Youngwood yards interfere considerably with the movement of loads. This has been remedied to a considerable extent by the Sunday "clean-up" which has been increasing fairly good supply of empties for placement on Monday until last Sunday when the system did not operate as smoothly as heretofore.

There is no abatement in demand for coke and only slight indications in the softening of price, which adheres closely to \$15.00 for spot furnace. Export coke is being called for to an extent beyond the ability of the railroads to supply transportation. The price remains in the neighborhood of \$9.00. By-product coal finds ready sale at \$8.50.

The estimated production of coke during the week ending Saturday, June 5, was 189,580 tons, contributed by the two districts as follows: Connellsville, 110,250, an increase of 3,492 tons; Lower Connellsville, 79,330, a decrease of 140 tons, making the net gain 3,852 tons, as compared with a gain of 7,478 tons during the preceding week.

By interests the production was: Furnace, 126,024, a gain of 3,816 tons; merchant, 63,556, a gain of 36 tons, as compared with gains of 3,938 and 3,540 tons respectively during the week ended May 29.

There was a net loss of 31 in the number of ovens in blast, made up of scattering changes, the larger number being at furnace-oven plants.

TESTS OF GEOPHONE

Show That It Can Detect Noises Through 2,500 Feet of Solid Coal.

In recent tests the geophone penetrated 2,500 feet of solid coal, revealing the pounding of a sledge. Men in a mine shaft 50 feet below the surface have been detected by the instrument. A human voice is audible through 50 feet of rock.

This device, which was a French invention of war-time to detect tunneling operations of the enemy, has been adopted by the United States Bureau of Mines as an auxiliary in locating entombed miners. The tests were made by the engineers of the bureau.

RHEUMATISM LEAVES YOU FOREVER

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-Four Hours.

Every druggist in this country is authorized to say to every rheumatic sufferer that if two bottles of Allenburys, the sure conqueror of rheumatism, does not stop all agonizing rheumatic joints and do away with even the slightest twinges of rheumatic pain, he will gladly return your money without comment.

Allenburys has been tried and tested for years and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and pitiable and where the patient was helpless.

Mr. James H. Allen, the discoverer of Allenburys, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenburys decisively conquers this worst of all diseases.

He has instructed the Connellsville Drug Co. and C. Roy Heald to guarantee it in every instance.

COKE TRADE SUMMARY.

The steady progress toward recovery in the coke situation, which has been moving along for some weeks past, is threatened with a halt. The fairly satisfactory average of car distribution, maintained by all the railroads serving the region, with the exception of the Pittsburgh & Lake Erie, was interrupted yesterday when practically no cars were available. This would not in itself be a more serious situation than the operators have frequently faced, but with the reasonably certain prospect that no cars will be distributed until Saturday, a different aspect is assumed. It means that the operating time of the region this week will be practically two days, instead of three, four, five and six as has been the schedule, at the various plants.

The damper upon the hopes and expectations of the producers comes just at the time a gradual weekly increase in production was taking place and keeping step with the record of a year ago. It is, therefore, out of harmony with the gain of 4,000 tons last week and the larger gain the preceding week.

The trade shows no appreciable change. There is demand for coke, but only enough spot to provide for the urgent needs of a comparatively few anxious consumers. The price shows certain softening indications but in reality it stands rather firmly at \$15.00 for spot furnace, \$16.50 for spot foundry. Contract negotiations are being talked about but nothing definitely done toward closing.

MAY SHOWED A GAIN OVER APRIL'S RECORD IN STEEL PRODUCTION

Steel Lags Behind Iron Which Is Still Accumulating at Furnaces; Heavy But Quiet Consumption of Steel.

NEW YORK, June 9.—The American Metal Market and Daily Iron & Steel Report will review the steel and iron trade tomorrow as follows:

The production of pig iron has increased slightly since the first of the month, while May production showed a good gain over the low rate in the latter part of April. Production of steel in May represented a corresponding increase, but at the present time steel production is lagging behind pig iron production, and production of finished steel is lagging behind production of ingots. Pig iron, ingots and semi-finished steel are accumulating. At some large plants the production of finished material has almost ceased, enormous accumulations being a bar to further operation, except to produce the steel for which there are car supplies.

The common opinion in the steel industry is that traffic conditions are improving, but this opinion is not universal, some observers insisting that conditions as to car supplies are worse than a fortnight ago.

Despite accumulations of finished and unfinished steel, receipts of steel by consumers are large as compared with pre-war standards, and it must not be thought that consumption of steel has come to a standstill by any means. Rather there is a marvelously large consumption by comparison with the apparent spathy of investors. There does not seem to be much demand for steel, yet enormous tonnages are being quickly consumed.

In the great majority of cases, however, it is only the early deliveries in which consumers show an interest. For a long continued heavy demand for steel basic conditions must be improved. There must be better transportation and better performance by labor in proportion to wage rates exacted. The aim of many business men is to get through with their present commitments at all hazards, and then await more promising conditions before embarking in more adventures.

Pig iron prices are supported by occasional buying and exhibit no weakness. Steel prices are practically stationary, except for declines in delivery premiums for the earliest deliveries.

WATER POWER IN FRANCE

Has Developed Extensively Since War; Millions of Frances Invested.

In 1899, France had only developed her water power to the extent of 115,000 H. P. In 1906, this figure had increased to 300,000 H. P., and in 1914, it reached 750,000. At the signing of the Armistice, work in the course of completion or completed since the first of August, 1914, provided another 565,000 H. P., of which 54 per cent came from the Alps, 22.3 per cent from the Massif Central, 17.7 per cent from the Pyrenees, and six per cent from the rest of France.

Two hundred and eight thousand H. P. were destined to electric lighting plants, power distributing stations and traction lines; 137,000 H. P. went to the electro-chemical industry and 220,000 H. P. to the electro-metalurgical industries.

The sum of money invested in hydro-electrical development from August, 1914 to the Armistice, between the period from the signing of the Armistice to December, 1919, 110,000,000 francs were invested. In 1914, the available water power in France was estimated at 10,000,000 H. P. This figure was based on average flow.

SHIP COAL RECORD

Established by R. & O. at Curtis Bay, by Handling 7,222 Tons in Two Hours.

A few weeks ago the Baltimore & Ohio railroad surpassed the world's record at Curtis Bay, Baltimore, in the quick loading of coal-carrying steamships.

By carrying the Malden with 7,222 tons of coal in one hour and 58 minutes, or at the rate of 3,672 tons per hour, or more than a ton per second, the previous best record at the same terminal was beaten by 25 per cent. The broken record was the loading of the same steamer with 5,967 tons in two hours and 44 minutes, or at the rate of 2,748 tons per hour.

During the first hour's loading of the Malden on the latest record 101 car loads of coal or 4,545 tons, were dumped into the ship.

Test it for yourself—

The
NEW EDISON

"The Photograph with a Soul" which made New York gasp with astonishment

We have an instrument exactly like the instrument which was used in the remarkable "Dark Scene" Test made March 10th, 1920, in Carnegie Hall, New York City, when the New Edison matched Anna Case's voice with a realism that utterly baffled a 200 sophisticated New Yorkers.

Test its power to give you the actual voices of great artists. Let us give you the Realism Test.

Helped Man and Wife.

Walter Farrand, 1693 Springfield Ave., Irvington, N. J., writes: "My back ached continuously, as did my wife's. After taking Foley Kidney Pills, we were surprised with the quick results. I recommend Foley Kidney Pills to any one who has kidney or bladder trouble." They help rid the blood of impurities that cause rheumatic pains, swollen, aching and stiff joints and muscles and other symptoms of kidney trouble. Sold everywhere.—Adv.

Oppose Seasonal Rates. The American Wholesale Coal association has filed a brief with the Senate Committee on Interstate Commerce in opposition to the Fréchet-buysen seasonal coal freight rate bill.
